**Subject:** NFB Air Sampling Update  
**Date:** Monday, April 28, 2014 4:20:50 PM

---

We are almost finished at NFB. We took a total of 8 samples. 2 upwind, 2 downwind (+1 duplicate), and 3 on source. In the morning I spoke with Paul Dickey of the Niagara County Department of Health. In the afternoon Mike Basile stopped by, and then shortly after a few gentlemen from the DEC. No problems from anyone. Forecast for tomorrow is not favorable for sampling, however, we are going to try at Upper Mountain Road in the morning.

Give me a call if you have any questions.

Andrew
